

Casco First Responder EMT Stretcher Mattress

The Casco First Responder EMT Stretcher Mattress is made with antimicrobial medical grade foam and a heavy duty tri-laminate vinyl (10oz.) that provides a surface that is hypoallergenic, easy to clean, stain resistant, and durable. The mattress is available in two sizes (73", 78") and includes an Intertek buckle system to provide superior durability and safety for the patient, and ease of use for the EMT crew when moving the patient from the EMT stretcher to another surface. This product is CAL 129 compliant.

Feature	Advantage	Benefit
Universal Fit	Designed to fit any stretcher frame	Fully adjustable to make, model, and brand of stretcher frame
High density foam core	Comfort	Promotes comfort during transport
Anti-microbial	Protection from all micro-organisms	Helps prevent the spread of germs and further illness
RF Sealed	Protects foam core from fluids	Promotes longer mattress life.
Ventilation Holes	Allows air to escape mattress	Prevents ballooning of mattress
No Bolsters	Easy patient transfer	Lower risk of back injuries to EMTs
Adjustable Buckle Straps	Allows for universal frame fit; can fit any size patient	Allows for standardization of stretcher mattress leading to cost savings
